DESCRIBE THE EFFECTS OF THE CITY COUNCIL'S PRELIMINARY POLICY DIRECTION REGARDING THIS SERVICE OR CHANGE TO SERVICE LEVEL.

This service delivery plan provides facility reservation, facility staff liaison, contractual over site and facility attendant support for City programs and community non-profit organizations. Council has requested this budget supplement, which will provide free use of park buildings for non-profit use, by groups under 20 people. While it is unclear if this policy would be restricted to only resident non-profit groups and how staff would monitor sites for participant limit compliance, participation would most likely increase. The loss of revenue would be approximately \$19,000 as most all non-profit groups meet with less than 20 people, however, given other reduction supplements, this option may require reinstatement of staff hours to provide the reservation and liaison duties. It is likely that this option would raise the issue of fairness and consistency with other non-profit groups that have more than 20 people in their group and groups, using other facilities, who would still be required to pay user fees (for sports fields, swim pools, etc.). There are 50 non-profit groups using park buildings, most of which have paid use fees for many years. These include groups for; youth education, youth religion, church meetings, youth play (Las Madres groups), yoga and meditation.
